INTRODUCTION

Thank you for purchasing these Cambridge Audio S70 floorstand loudspeakers. We hope that you enjoy many years of listening pleasure from them. Your loudspeakers can only be as good as the system it is connected to. Please do not compromise on your amplifier or cabling. Naturally we particularly recommend amplification from the Cambridge Audio range, which has been designed to the same exacting standards as our loudspeakers. Your dealer can also supply excellent quality speaker cable to ensure your system realises its full potential.

Thank you for taking the time to read this manual; we do recommend you keep it for future reference.
